DISCOVERING THE TRUTH:

What Do You Really, Really REALLY, REALLY WANT?

Welcome, and congratulations! You have taken the first step towards creating a life where you're building a law practice you love that loves you back, and where you get to work with clients you love to serve, in a way that you love to serve them, and they happily pay you exactly what you need, without you sacrificing your life. Sound too good to be true? It's not. This is exactly what life is like for our member lawyers, and they have all gone through this process.

Why? Because CLARITY, which is what we are delivering to you through this part of the Money Map process, is the key to achieving all of your dreams in life.

When you know what you want, you can create it. When you don't know what you want, you are wasting your energy on confusion, mind-spin, and uncertainty. From there, fear and doubt will take over, and it's very difficult to create anything from that space.

Remember this throughout our journey together ... we all have 4 types of resources: Time, Energy, Attention and Money (we call these your TEAM resources), and out of all 4 of those the only renewable and infinitely available resource is Money. Time, Energy and Attention (which include your relationships) are nonrenewable. Once they are spent, they are gone.

Money is infinitely renewable, once you know how to access it. And when you use your Time, Energy and Attention in right relationship (and get into CLARITY!), Money is actually quite easy to create.

As you venture on this journey, you're likely going to want support and to connect with other lawyers who are on the same path. You can receive coaching, support and connect with a community of other awesome lawyers like you at www.newlawbusinessmodel.com/awesomelawyers anytime you want or need. We can't wait to see you there.

So, let's get you clarity, okay?

In Module 1 you will begin to discover what you really, really, REALLY want. And I say begin because as you use the Money Map and achieve more and more of your goals, your ability to dream and discover what you want will grow. Just like exercise grows your physical muscles, by exercising your "clarity" and "wanting" muscles, you will grow your creative abilities for mapping the life you want in ways you didn't even know were possible.

What's the most common limitation people experience in Module 1 of the Money Map as we dive into discovering what you really want? Answer: it's the ways we have habitually come to think about things and how they work, what we do or don't believe is even possible; or put another way, what you may have never taken the time to even wonder or dream about

So, please, the greatest gift you can give yourself as you go through Module 1 is the space and permission to dream, discover, admit, and acknowledge what you really want.

If you need to find somewhere where you will be undisturbed so you can honor the desires that arise and write them down, do that. Give yourself an hour of undisturbed time. Block it on your calendar, go to a coffee shop or lock your office door, and dare to dream into the possibilities here.

This is about unconditional radical honesty. With yourself. And, you deserve it.

So find your private spot and give yourself permission to really feel into what you would want at each dimension, and in each of these life and business categories.

HE FIRST STEP TO HAVING WHAT YOU WANT IS FULLY ADMITTING WHAT YOU WANT AND ALLOWING YOURSELF TO FEEL IT ALL THE WAY THROUGH." - ALEXIS NEELY

So, let's get started. But first, take a moment to breathe, get centered, and drop in, so that you can answer the following questions from your highest, truest Self.

| Begin to feel into these things — what makes you feel most like you? |
|--|
| Living Space |
| Clothing |
| People |
| Transportation |
| Places |
| Events |
| Food |
| Inner Work |
| Outer Work |
| Self Care |
| Heart Projects |
| |

Many people are completely disconnected from what I'm asking you to feel into now for yourself. We limit what we want by what we think is possible. It's time for you to stop doing that.

Module 1 is all about giving yourself permission to dream, to rediscover what you can want and what you do want, when you create the space for yourself to be able to acknowledge it. Ask, as Howard Thurman says ... "What makes you come alive?"

And, if you can answer these questions for yourself right now because you know yourself and what you want, I encourage you to develop and refine the ability to continue to dream and set goals — turn it into an art form. Have fun!

What do you think? Why is acknowledging what you want so important?

| | You can't get what you want until you know what you want |
|---|---|
| | You will continue to find ways to sabotage yourself if you don't allow yourself the clarity of knowing what you want |
| ۵ | You will not offer your Great Work in the world with full passion unless you are doing something you really want to do and believe in |
| | You won't be truly and deeply fulfilled or happy unless you do |
| | All of the above |

Now, you're going start describing and feeling into more of what you want as it relates to different categories of lifestyle and revenue generating activities. Again, in this module, we are focusing just on what you truly desire and what that looks and feels like at four different dimensions. We are focusing on the life and law practice that will support you to be the very best you and of highest service in the world.

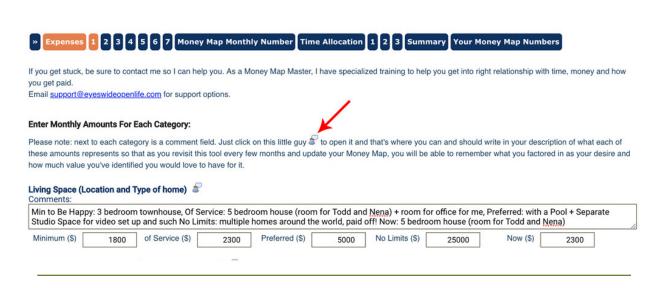

Let go of any constraints you would put around that in terms of how you would actually do these things or how much it would cost to do so. (And don't worry, we promise we'll get to that later.)

Don't worry at all about the numbers, or even what's possible (in fact if you find your mind asking the question "how," let it know you'll come back to that later), and simply allow yourself to write whatever comes out about what you want in each category at each of the four dimensions.

So now, just get present to what your life would look and feel like in four different dimensions for each category and begin to describe it in writing, in as much detail as you can.

And, if you prefer to do this online, go register at http://www.moneymaptool.com and you can use the online tool we've created. When you register and login, you'll get to the first screen and it will look like this and you'll click on the little character that is pointed out in red below to open a window where you can type and save your answers:

(By the way, you might notice that the tool has a category called "no limits." We've recently removed that from the Money Map process (but not the tool quite yet) since, well, there are limits. So feel free to ignore that, or if you'd like to feel into your life and income at no limits, by all means go for it!)

But, remember, you aren't inputting any \$\$ amounts yet. This is dreaming into what you want time, first. You'll get to the actual numbers in the next module. Focusing on the numbers now is likely to derail your process. If you know yourself, and it does not, you can put numbers in now, but for many people thinking about the numbers will derail you, so just dream into WHAT you want, not what it will cost for you to have it ... yet.

And, remember, you are dreaming at four dimensions, which are:

- 1. Minimum to be happy
- 2. Minimum to be of service
- 3. Preferred if you could afford it
- 4. Now
